

## **State Senator Ronald Ramsey Introduces Child Transportation Safety Bill for Georgia Latest Death Prompts Decisive Action By Georgia Legislators**

**Atlanta, GA, August 25, 2011** (MARKETWIRE via COMTEX) – **ATWEC Technologies, Inc.** (OTC Markets: ATWT), a US-based child safety company, today announced that Georgia State Senator Ronald B. Ramsey introduced legislation for next year's legislative session which would require the installation of child safety alarms in all day care transport vehicles throughout Georgia.

Senator Ramsey, various local officials, and community leaders were in attendance yesterday to support the legislation and the ATWEC **KidSafe™** program. It is anticipated that Georgia will pass legislation similar to that of several other states, the most recent being Louisiana, which became law on July 01, 2011.

In the news conference Senator Ramsey praised ATWEC for their breakthrough safety technology. The Company's **Kiddie Voice™** system is unique, patented, and provides a total solution for child safety that will comply with the proposed Georgia law.

"Unfortunately, there has been another tragic accident involving an innocent child," said Alex Wiley, the Company's President and CEO. "Several weeks ago, 2 year-old Jazmin Green died in Clayton County after being forgotten in a hot daycare van after a field trip. We must act now, and work together to prevent this from ever happening again. We applaud Senator Ramsey for his swift action to bring about change."

ATWEC met last week with Bobby Cagle, the Georgia Commissioner of DECAL, to discuss and demonstrate the merits of mandating child safety devices on all vehicles transporting children to and from early care and education programs. "This meeting was productive and informative, as the commissioner got an up-close and personal look at an affordable technology solution for the industry", said Wiley. "We have already begun the task of educating the many day care centers in Georgia, so their vehicles can become 'kid-safe' as soon as possible."

### **Safe Harbor Statement**

This release contains "forward-looking statements" within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended, and such forward-looking statements are made pursuant to the safe harbor provisions of the Private Securities Litigation Reform Act of 1995. "Forward-looking statements" describe future expectations, plans, results, or strategies and are generally preceded by words such as "may", "future", "plan" or "planned", "will" or "should", "expected," "anticipates", "draft", "eventually" or "projected".

You are cautioned that such statements are subject to a multitude of risks and uncertainties that could cause future circumstances, events, or results to differ materially from those projected in the forward-looking statements, including the risks that actual results may differ materially from those projected in the forward-looking statements as a result of various factors, and other risks identified in the Company's disclosure information.
